Essen, 03.08.2009

Change of ownership

Dears Sir or Madam,

With our letter dated June 30, 2009 we informed you about the change of ownership of our enterprise that has taken place and we thus became a member of **Kolektor Group d.o.o.**, which has its headquarters in Idrija, Slovenia. Now after the enrollment in the register of corporations our company name ECS Magnet Engineering GmbH changed to

Kolektor Magnet Technology GmbH

All existing contractual relations, your contact partners as well as their phone and fax numbers, our sales tax no. and bank accounts well known to you remain unchanged for the time being.

The new e-mail addresses of your partners will be changed as follows:

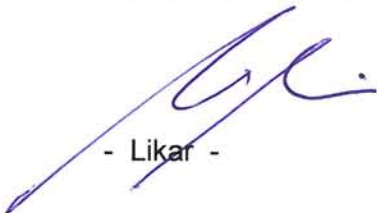

first name.family name@kolektor-kmt.de

Kolektor is an entrepreneurial group with independent companies, operating world-wide, in Europe, the USA and Asia strategically focused on the global requirements of the markets.

This measure consolidates our financial basis, focuses the operational efficiency of our enterprise and thus secures our position as a world-wide supplier for our customers.

The benefits of this change will have positive implications for our customers, employees and suppliers around the globe.

Let us use these chances together.
